What Do I Enter?

Herding Instinct Test*

(No previous experience is necessary!) The Instinct Test is held in a small pen, either round in shape or with rounded corners, which can vary in size from 50 x 50 feet, up to 100 x 100 feet. Livestock used can be cattle, sheep or ducks. The dog will enter the pen on a 6-15 foot long line. Before removing the line, the dog must demonstrate a stop (down, sit or stand) and a recall. Once the dog has completed this exercise, the line may be dropped for the dog to drag, or removed entirely. If the dog cannot exhibit the stop, the tester is not to allow the dog off-line.

Once the dog is allowed to approach the livestock, the tester will be looking for sustained interest in controlling the livestock. This can be shown by the dog gathering the livestock, moving the livestock toward the handler, or moving them ahead of the handler in a driving position. A combination of any of these styles is acceptable.

Belgian Sheepdog Club of America Herding Instinct Certificate

A Herding Instinct Certificate is being offered by the Belgian Sheepdog Club of America. In order to receive the Certificate, the dog must enter and pass one of the two offered Herding Instinct Tests offered at this event.* Pre-entry is recommended due to judge limitations.

Day-of-show entries will be accepted for Herding Instinct Testing if numerical limits have not been reached. Entries must be received by the Trial Secretary by 11:00 a.m.

Please fill out the "BSCA Herding Instinct Application" form and enclose it with your AKC entry form. While entering the AKC Instinct Test is not required, you get both for the same entry fee. :)

* To receive the AKC Herding Instinct Test (HIT) Certificate, the dog must pass under two separate judges.

Herding Test

The dog must be under control and demonstrate controlled movement of the stock from the first pylon to the second pylon, turn the stock at or near the second pylon, and move the stock back to the first pylon, where they are again turned (at or near the pylon) and moved back to the second pylon. At the handler's option, the dog may work the stock across the open arena or along the fence line. The test is concluded at or near the second pylon with a stop followed by a recall. The Judge indicates completion of the test, and the handler leashes the dog and leaves the arena. The five elements of the test, which must be executed are:

1. A controlled pause or stop at the beginning,
- 2 and 3. Two changes in direction at or near the proper pylon while exhibiting controlled movement of the stock,
4. A stop,
5. Followed by a recall at the conclusion of the run.
